This summer workshop is designed to help students expand their vocabulary, strengthen language skills, and improve their writing. Through engaging and interactive activities, students will learn to use precise and powerful words, create more dynamic descriptions, and develop confidence in their writing.	4,5	Tuesdays,Thursdays	1:30 PM
Geometry: Art in Every Angle (5-8)	In this creative math workshop, we will reinforce middle school math concepts by creating fun art projects. As we create engaging art, we will review how to measure angles, coordinate grid basics, and scaled proportions.	5,6,7,8	Mondays,Wednesdays	10:00 AM
Geometry: Art in Every Angle (5-8)	In this creative math workshop, we will reinforce middle school math concepts by creating fun art projects. As we create engaging art, we will review how to measure angles, coordinate grid basics, and scaled proportions.	5,6,7,8	Tuesdays,Thursdays	12:30 PM
Interactive Language Arts (6-8)	This fun and interactive workshop helps students build their language arts skills through discussions, group activities, and hands-on practice. Students will explore storytelling, reading and understanding literature, writing techniques, and persuasive writing. Each workshop session includes engaging exercises and teamwork to strengthen key writing skills and to explore key ideas within stories and other works of writing. Each session is independent, meaning students can join any day without falling behind.	6,7,8	Tuesdays,Thursdays	11:00 AM

Journey Into Math (5)	Get ready for 5th-grade math with fun activities to strengthen key skills such as multi-digit multiplication, long division, and adding & subtracting fractions. This workshop will review essential problem-solving strategies to help you succeed with confidence on your math journey!	5	Mondays,Wednesdays	1:30 PM
Journey Into Math (5)	Get ready for 5th-grade math with fun activities to strengthen key skills such as multi-digit multiplication, long division, and adding & subtracting fractions. This workshop will review essential problem-solving strategies to help you succeed with confidence on your math journey!	5	Tuesdays,Thursdays	9:00 AM
Junior Mathematicians (1-2)	Get ready to build your math skills in this fun and interactive workshop! Young learners will explore numbers, shapes, patterns, and problem-solving strategies through hands-on activities, games, and fun challenges. Each session combines movement, household objects, and digital tools to make math exciting and engaging. From place value to measuring, telling time, and exploring money concepts, kids will gain confidence and have fun becoming junior mathematicians!	1,2	Mondays,Wednesdays	11:00 AM

Let's Make a Deal (6-8)	Who doesn't love a good shopping deal? Let's find the best deals in town as we practice our unit price, sales tax percentages, and overall math comparison skills.	6,7,8	Mondays,Wednesdays	12:30 PM
Let's Make a Deal (6-8)	Who doesn't love a good shopping deal? Let's find the best deals in town as we practice our unit price, sales tax percentages, and overall math comparison skills.	6,7,8	Tuesdays,Thursdays	11:00 AM
Making Math Add Up (4)	In this workshop, we will review key 3rd-grade math concepts to prepare learners for the wonderful world of 4th-grade math. We will review multiplication and division strategies as well as fun fraction basics.	4	Mondays,Wednesdays	11:00 AM
Making Math Add Up (4)	In this workshop, we will review key 3rd-grade math concepts to prepare learners for the wonderful world of 4th-grade math. We will review multiplication and division strategies as well as fun fraction basics.	4	Tuesdays,Thursdays	12:30 PM
Math Detectives (3-4)	Step into a world of clues, codes, and curious thinking in Math Detectives! In this exciting online workshop, students become math detectives who solve mysteries and crack puzzles using numbers, patterns, and problem-solving strategies. Through interactive challenges like breaking number codes, investigating fraction evidence, surveying classmates, and escaping the "Logic Lab," students strengthen essential grade 3-4 math skills—including multiplication, division, fractions, measurement, data analysis, and geometry.	3,4	Mondays,Wednesdays	1:30 PM

Multiply and Conquer (2-3)	This summer, let's conquer the multiplication jitters as we learn all about arrays, skip counting, and different tools to help us battle and win our multiplication facts.	2,3	Mondays,Wednesdays	10:00 AM

Multiply and Conquer (2-3)	This summer, let's conquer the multiplication jitters as we learn all about arrays, skip counting, and different tools to help us battle and win our multiplication facts.	2,3	Tuesdays,Thursdays	9:00 AM
Number Ninjas (TK-1)	Join us for an exciting, hands-on math adventure designed for young learners! Students will build essential early math skills through movement, games, and fun activities in this interactive workshop. From counting and sorting to shape hunts and pattern play, each session is filled with engaging, hands-on experiences using household objects and digital tools. With plenty of opportunities for exploration and problem-solving, this workshop helps kids develop confidence and a love for math—one ninja move at a time!	TK,K,1	Mondays,Wednesdays	9:00 AM

The World of Words (6-8)	The World of Words is designed to teach students how to write confidently and creatively. Through engaging lessons on genre, jargon, spelling, and word roots, students will learn how words work and how to use them effectively. Activities are hands-on and discussion-based, encouraging students to experiment with language, strengthen reading comprehension, and expand their writing skills. Whether students love words or struggle with them, the World of Words will make vocabulary fun, memorable, and meaningful.	6,7,8	Mondays,Wednesdays	10:00 AM
